

# ACB Monthly Journal Club 2009 Theme: A drying climate

*Join us to critically discuss current scientific literature based around a current, topical theme*

*Share your views and ideas, and gain new insights from ACB members from varying scientific backgrounds*

- All postgraduate ACB members are encouraged to attend, and visitors and academics are more than welcome
- ACB research groups have volunteered papers around this semester's theme. The sessions will be facilitated by postgraduate students, and mediated by an academic from the volunteering research group
- The article will be circulated to all ACB postgraduates and members at least two weeks before the session
- Nibbles will be provided

For further enquiries, or for a copy of the next discussion group paper, please contact:
